Stock declaration condition (if stated as being applicable by the word “Yes” next to “Stock declaration condition” in the schedule)

In respect of stock and materials in trade insured under this section being subject to the stock declaration conditions, a deposit premium is charged calculated as a percentage (as stated in the schedule) of the required premium had this condition not been included, subject to the following specific conditions:

1. The Insured is to set the insured amount at a level so as to represent the maximum that stock values should reach during the period of insurance. The responsibility shall remain with the Insured during the period of insurance to notify the Company in writing should an increase in the insured amount be required due to stock levels exceeding the insured amount. Declarations received as set out hereunder exceeding the insured amount shall not be considered a formal request to increase the insured amount;
2. The Insured shall declare to the Company in writing the market value of their stock and materials in trade on the last day of each month/quarter (as stated in the schedule) and shall make such declaration within 30 days thereof, otherwise they shall be deemed to have declared the insured amount as stated in the schedule on such property as the market value thereof;
3. After each period of insurance (or twelve consecutive months from the inception date or anniversary date if this policy is not an annual contract), the premium shall subject to 4 below be re-calculated on the average declared amount, namely the total of the values declared or deemed to have been declared, divided by the number of declarations due to have been made. If the resultant premium differs from the deposit premium, the difference shall be payable by or to the Insured as the case may be, but the amount payable by the Company shall not exceed 50 per cent of the provisional premium;
4. Any monthly/quarterly declaration received exceeding the insured amount shall be noted in the books of the Company as being limited to the insured amount as stated in the schedule for determining the average declared amount as set out in 3 above. Premium shall not be payable on that part of any declaration that is in excess of the insured amount;
5. The Company shall in the event of a loss, irrespective of the value of any monthly/quarterly declarations received, not be liable for more than the insured amount as stated in the schedule;
6. Any claim hereunder shall be settled on the basis of the market value immediately anterior to the damage but in all cases the liability of the Company shall be limited as set out in 5 above;
7. If, after the occurrence of damage, it is found that the amount of the last declaration is less than the amount that ought to have been declared, then the amount which would have been recoverable by the Insured shall be reduced in such proportion as the amount of the said declaration bears to the amount that ought to have been declared or to the insured amount, whichever is the lesser amount. The provisions of this condition shall, if applicable, operate cumulatively with the provisions of the specific condition relating to average;
8. In consideration of the insurance not being reduced by the amount of any loss, the Insured shall pay additional premium on the amount of the loss from the date thereof to expiry of the period of insurance and such extra premium shall not be taken into account in, and shall be distinct from, the final adjustment premium;
9. The above specific conditions shall apply separately to each stock item (if more than one) that is noted in the schedule as being subject to the stock declaration condition.
