First amount payable applicable to theft of cheques

Any loss or series of losses attributable to one original event which is payable under this section and which results from the theft of any cheque or cheques shall be reduced by a first amount payable of 25% of the loss indemnifiable by this section unless:

1. Cheques are drawn by the Insured
 - (a) the cheque has been drawn and crossed exactly in accordance with the under mentioned "Recommended South African Insurance Association (SAIA) procedure for drawing and crossing of cheques" or any other superior method approved by the SAIA and the printed portion of the cheque (as opposed to the written or typed portion) has been printed by the bank itself or a printer licensed to print cheques by the Automatic Clearing Bureau.
 - (b) the cheque has been dispatched to the payee by certified post or any post where the security is equal or superior to certified post
2. Cheques drawn by someone other than the Insured and which were received by the Insured by post or direct by the cashier
 - (a) such cheque has been crossed and marked "not negotiable" and marked "not transferable" immediately on receipt thereof by the Insured and
 - (b) the Insured is able to identify the drawer and amount of the cheque from their records
3. Cheques of which the insured is the true owner which were drawn by someone other than the Insured and posted to the Insured but not received
 - (a) the cheque has been drawn and crossed exactly in accordance with the under mentioned "Recommended SAIA procedure for drawing and crossing of cheques" or any other superior method approved by the SAIA
 - or
 - (b) the cheque was dispatched to the Insured by certified post or any post where security is equal or superior to certified post
 - or
 - (c) the invoice of the Insured (to which the payment by cheque relates) contains a message (approved by the Company or SAIA) on it recommending or requiring that the cheque be drawn in accordance with the under mentioned "Recommended SAIA procedure for drawing and crossing of cheques."

Recommended SAIA Procedure for Drawing and Crossing of Cheques and Printing of Blank Cheques.

A. Drawing and crossing of cheques.

One of the safest methods of drawing and crossing a cheque which is acceptable to banks is as noted hereunder. This method is recommended by the SAIA

1. Delete the pre-printed words "or bearer." This limits the possibility of the drawee bank paying out to a bearer who might not be entitled to payment

2. If instead of "or bearer" your cheque has pre-printed on it "or order" these words must also be deleted
3. Write on the face of the cheque the words "not transferable"
4. Cross the cheque by drawing two parallel lines across the cheque
5. Write the words "not negotiable" between the two parallel lines referred to in 4 above.
6. Ensure that the payee is accurately and fully described for example where the payee is a Company its full name should be used: RH Jones (Pty) Ltd not just RH Jones.

Where the bank account number or CC number of the payee is known this should be included after the name of the payee, for example, "RH Jones (Pty) Ltd, Co. No: 69/12456" or "RH Jones (Pty) Ltd ABC Bank account no: 123456789."

Whilst highly recommended it is not compulsory to use the bank account number of the payee:

7. In drawing the cheque no spaces should be left which would allow anyone to add extra words or figures
8. An example of the method of drawing a cheque is attached as Annexure A
9. On the rear of the cheque the wording listed in Annexure B (last page of this section) should be printed. Please ensure that space is left on the rear of the cheque for bank stamps and endorsements
10. All the markings on a cheque should be legible and clearly visible. Persons drawing cheques should not use abbreviated or different versions of the terminology used in the example. The words "not neg." and a crossing using a rubber stamp containing a rectangle rather than two parallel lines are worthless.
11. The method used to complete cheques should be one which makes an ink impression on the paper like handwriting, a typewriter or a dot matrix printer. The ribbon used on the printer/typewriter should be of the type which impregnates the paper with ink. Do not use:
 - (i) old ribbons
 - (ii) laser printers which do not make an impression into the paper
 - (iii) the "reverse printing technique"
 - (iv) correctable type ribbons

B. Printing of blank cheques

Blank cheques should only be printed by the Bank itself or a printer licensed by the Automatic Clearing Bureau. These printers know the recommended requirements of banks and should only use approved:

- (i) security paper (CBS1 or superior)
- (ii) security designs
- (iii) special security inks compatible with the security paper/design
- (iv) methods which make it difficult for anyone to make a supply of blank cheques by photocopying the originals
