

Protecting your eye in the sky

Hollard.
drone insurance

Drones are expensive pieces of equipment, with a price tag that could run into the hundreds of thousands of rands. The risks associated with owning and operating drones as part of your business are significant – but not unmanageable.

Hollard offers unique, comprehensive drone insurance designed specifically to cover drones in business and commercial use. Our drone insurance covers loss, damage and liability related to the drone itself, as well as premises, hangar keepers and product liability. You can also insure against loss of data collected by your drone.

Hollard's drone insurance cover is available throughout South Africa and is suitable for organisations in any sector of the economy.

Make sure your eye in the sky is covered!

Underwritten by The Hollard Insurance Co. Ltd (Reg No 1952/003004/06), an authorised Financial Services Provider

What we insure

Hollard drone insurance provides comprehensive cover for loss or damage of your drone, including:

- Spares and equipment
- Hijacking and extortion
- Theft from a vehicle (unique to Hollard policyholders)
- Disappearance
- Emergency expenses

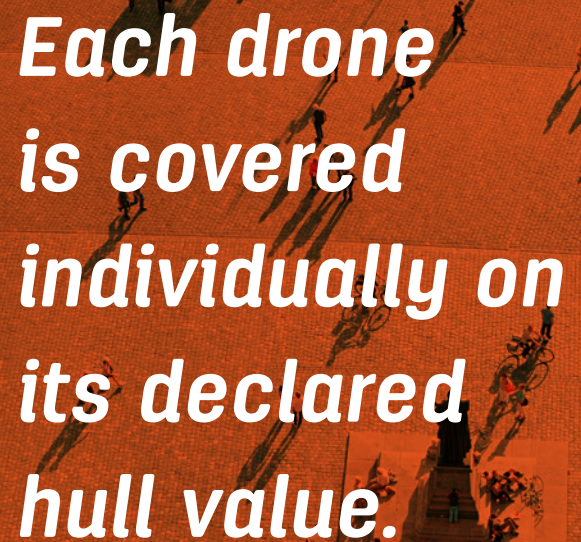

You are also covered if your drone is used by an unauthorised person without your permission and, in the process, causes injury or damage to third party property.

As a business or commercial drone operator, you also need cover to protect you from any liability that might arise as a result of using your drone. Our drone liability insurance covers you in the event of claims for:

- Accidental third-party injury or death
- Accidental damage to someone else's property
- Damage to goods or products that form part of your drone, or are used in conjunction with your drone
- Damage to someone else's drone while in your custody

We also offer a number of optional cover extensions, including:

- Personal Accident
- Cyber cover
- Hull War extension

**Each drone
is covered
individually on
its declared
hull value.**

Who we insure

Hollard will only insure registered drones that are operated by qualified drone pilots. In this way we are able to minimise our clients' risk and keep premiums to a minimum.

Don't meet the criteria?

Never fear. Working with one of SA's leading pilot training schools, and through our relationship with the South African Civil Aviation Authority (CAA), we can help you to get licenced, registered, insured and up in the air!
