**SMIT & KIE BROKERS**

EEZI ASSIST GO TO GUIDE

Visit Smit & Kie Eezi Assist by clicking on the link below

bit.ly/Smit_and_Kie_Eezi_Assist

1 REGISTRATION

When you click on the bit.ly/Smit_and_Kie_Eezi_Assist **link, you will be directed to the Smit & Kie Eezi Assist registration form**

1. Fill in the Eezi Assist form with the required information as prompted

2. Once completed, click on verify and save

3. Confirmation of successful registration will be displayed on your device

4. An activation SMS will be sent to your mobile
   The SMS will contain a code which you can use to set up a speed dial number to quickly access Eezi Assist
   e.g. ***120*880*25272#**

2 SPEED DIAL SET UP

**These methods will vary from device to device and the instructions below are only meant as a general guideline.
Please check your device manual if these instructions differ from the instruction provided**

FOR ANDROID
- Copy or write down the code received by SMS
- Save the code as a new contact
  - Open the Phone icon. This is the default Phone or Dialing icon in any Android device. You can find the icon on your Home screen or Apps Tray
  - Select settings. Select the 3 dots at the upper right corner for more options
  - Select Speed Dial numbers
  - Add a Speed Dial number by selecting the drop-down arrow and select the Eezi Assist contact you just created
  - Assign the contact to a speed dial key by tapping on the contacts icon

OR

- Copy or write down the code received by SMS
- Save the code as a new contact
- Open the Phone icon
- Press and hold the speed dial number you want. Number 1 is usually assigned as the default voicemail recovery key so you can only use Numbers 2-9 for speed dialing
- Select Assign
- Select the Eezi Assist contact to assign to a particular number

FOR iOS
- Copy or write down the code received by SMS
- Save the code as a new contact
  - Select and open the new contact you have just saved
  - Click on add to favourites - select the call option
- This contact will now be added to your favourites list
