# 4 VAPS HCV ASSIST

(HCV's, Trailers, Commercial Vehicles, Pmv's, LDV's & Special Types)

## 1. ROADSIDE ASSISTANCE AND ACCIDENT MANAGEMENT FOR VEHICLES **OVER 3500KG**

 **24/7 Contact number: 066 251 3044**

The VAPS Assist 24/7 Call Centre provides immediate access to a team of dedicated case managers, together with a national complement of accredited assistance service providers who will assist with roadside emergencies. The services are only applicable when the service is requested through the Call Centre. Parts, repairs, maintenance services and such other goods and services as indicated below are not included. The Call Centre may, depending on the circumstances, elect to incur the costs of certain items on the Member or Policyholder's behalf and recover such costs from the Insurer, member or Policyholder.

Please note that this product does not constitute an insurance product and the Call Centre therefore does not in any way indemnify the member against losses, liability, expenses or damages suffered. All limits covered as stipulated below will be covered by the Insurance Policy attached to this Roadside Assist benefit. Should the member or policyholder find themselves stranded because of a vehicle breakdown, the Call Centre will arrange one of the following services:

### 1. Mechanical & Electrical Breakdown

(Covered to the nearest repairer up to a maximum of 250 km per incident  
- Maximum cover R 20 000 per incident/Annual Limit of R 20 000 per vehicle –  
Covered by the Insurance Policy attached to this Roadside Assist benefit)

Should the insured vehicle and/or trailers become disabled as a result of mechanical or electrical breakdown, the vehicle will be towed to the nearest repairer/service facility not exceeding the radius of 250km from the scene of the incident within the borders of South Africa. The costs will be for the Insurer's (VAPS) account up to the specified limits in the schedule.

**Note: Only mechanical and electrical components on the rolling chassis and or drive line are covered.**

### 2. Flat Battery Assistance

(Callout fee up covered to R 2 000 per incident - Covered by the Insurance Policy attached to this Roadside Assist benefit)

*If a battery failure occurs, a jump start will be provided to start your vehicle.*

- Any additional costs for travel, parts and labour will be for your own account.
- Battery not included.

### 3. Locksmith Assistance

(Callout Fee covered up to R 2 000 per incident)

If your keys are locked inside the vehicle, assistance will be provided to gain entry to the vehicle

- Any additional costs for travel, labour and parts will be for the Insured or Member's account.

### 4. Recovery/Winching Assistance

(Callout fee covered up to R 2 000 per incident - Covered by the Insurance Policy attached to this Roadside Assist benefit)

Provides assistance in extracting the vehicle when stuck in a ditch and such locations is within 50 meters of a paved road or highway.

- Covered up to a maximum of 1 hour per vehicle per incident.
- This benefit does not cover extraction when driving a vehicle off-road or unpaved highways.

### 5. Vehicle Protection Service

(Callout Fee covered up to R 2 000 per incident)

In the event of an incident and where necessary, the call centre will dispatch the police/runner vehicle to the scene in order to guard the vehicle and load until such time as the roadside assistance vehicle or tow truck arrives.

\*Subject to availability in the specific area

## 6. Accident Management

(Covered by the Insurance Policy attached to this Roadside Assist benefit)

In the event of an accident, VAPS 24/7 HCV Assist will assist to tow the vehicle to the nearest approved repairer. The cost of the accident tow will be invoiced to the Insurer as part of the claim. Should the client not register a claim, the client will be liable for the cost of the accident tow.

## 7. Mud Recovery

ated to be included in the schedule - Covered by the Insurance Policy attached to this Roadside Assist benefit)

- **All Medium & Long-Haul HCVs and Buses with a value of more than R 800 000** – 2 Camera Video Telematics and Tracking system with Recovery option and vehicle monitoring including monthly driver monitoring reporting required.
- **All Trailers with a Value of more than R 200 000** – Non-Wired Trailer Tracking unit to be installed in/on either front or rear trailer link with a battery life of at least two years. One unit per trailer combination.
- **Goods In Transit with a Value/Load Limit of R 1 200 000 and above** - Independent Tracking units installed in/on both trailer links, wired to Suzi power with battery backup for at least 5 days and must include trailer disconnect alerts.
- **All Vehicles with a Value below R 200 000** – VESA level 3 or 4 or factory fitted alarm/immobilizer and/or Tracking device

**The company shall not be liable to pay for loss or damage to any Insured vehicle, Insured trailers and/or Goods-in-transit (GIT) or any part thereof because of theft or hijacking irrespective of the manner in which the theft/hijacking took place unless:**

1. The insured can prove that prior to the happening of such theft or hijacking (or attempt thereof) the vehicle and/or trailers was fitted with an approved VAPS HCV tracking and/or camera system as specified in the requirements above.
2. The insured can prove that the system was operational at the time of any theft or hijacking or any attempt thereof:
3. The insured can prove that a legal contract existed between the insured and the supplier of the vehicle and/or trailer tracking system and that any monthly subscription fees have been paid in full at the time of any theft or hijacking or any attempt thereof:
4. The vehicle and/or trailer tracking system is monitored, on a 24-hour basis, by a manned control room operated by employees of the supplier of the vehicle and/or trailer tracking system.
5. The contract which exists between the insured and the supplier of the vehicle/trailer tracking system requires the suppliers, in the event of the tracking system being activated, to immediately notify the insured of the activation and proceed forthwith with steps to recover the vehicle.
6. These requirements are compulsory on all vehicles and trailers as stipulated above.

## 7 VAPS TRANSPORT RISK MANAGEMENT GUIDELINES

### 1. Roadworthiness – Please refer to the Road Traffic Act of 1999

The following are very important:

- a) Truck and trailer brakes must comply with SANS 10047.
- b) Maintain vehicles and service vehicle at approved Manufacturer intervals.
- c) Keep a serviced fire extinguisher fitted to all trucks.

### 2. Foreign Driver's Licenses – Please ensure all Foreign Drivers have a valid license and PDP.

Contact Leigh at Check-your-driver at leigh@check-your-driver.co.za or 084 597 6542 to verify any Driver's license

### 3. Tracking Devices/Theft/Hijack

- a) All Vehicles with a Value of more than R 200 000 – Tracking device with Recovery option required
- b) All Vehicles with a Value below R 200 000 – VESA level 3 or 4 or factory fitted alarm/immobilizer and/or Tracking device

### 4. Claims Procedures to be followed in the event of Loss or Damage which may give rise to a claim:

**Accident Towing & Mechanical Breakdown Towing > VAPS 24/7 Number – 066 251 3044** 

Theft/Hijack & Serious Accidents - In the case of a theft or hijack and in case of a serious accident where the damage to the insured vehicle is likely to exceed R500,000 (five hundred thousand Rand) And /or more than one third party is involved in the event and as soon as the occurrence is known, IMMEDIATE NOTIFICATION must be given to:

- **VAPS 24/7 Assist Control Centre at 066 251 3044**

VAPS HCV must be notified as soon as possible, but no later than TWO WORKING DAYS after the occurrence. VAPS HCV Office Number: 012 942 4537

**These Claims Procedure are in addition to and must be read with the Claims Procedure Clause of the VAPS HCV Policy Wording.**

- In all cases report the matter to the South African Police Service within 24 hours.
- In all cases advise VAPS HCV of the matter at the office number 012 942 4537, during office hours or 083 412 2451 after hours and as soon as reasonably possible but within 48 hours for thefts / hijacks
- Take all reasonable steps to recover the stolen property and to discover the guilty party.
- Complete a claim form as soon as reasonably possible and provide VAPS with all the materials information as requested. The Insurer will be under no obligation to proceed with a claim if you do not provide in full the required information

# 8 VAPS HCV TELEMATICS

For your benefit, we take risk mitigation seriously!

**We now offer superior Fleet Safety Solutions through our partnership with iCAM Video Telematics Solutions to monitor and protect your fleet the right way.**

## SOLUTIONS:

### ▶ VIDEO SYSTEMS

Our Vehicles Video Systems range from 1 to 16 camera channel devices with models to suit all vehicle types.

All devices are embedded with GPS, WiFi, 4G (SIM) and Accelerometer modules. Video resolution is configurable from VGA to FULL HD 1080P for high resolution footage. Video is available in 3 categories: Live Stream feed via mobile network, Event/Alarm Trigger video from our server and Historical Footage directly from the device memory sourced by date and time. On board memory storage capacity ranges from 64GB to 2TB providing up to 900 hours of footage

### ▶ TRACKING & TELEMATICS

iCAM Tracking & Telematics products consists of an all - encompassing range of device types which will meet the needs of any client in any economic sector. These Vehicle, Machine, Asset or Trailer based tracking products include access to CANBUS, third party devices such as temperature control, fuel probes and the like.

Driver ID, RFID buttons, Two-way Communication, Satellite Modules are some of our accessories available with these tracking and telematics products all reporting to our Platforms, 24/7 Bureau with Recovery and Monitoring options.

### ▶ DRIVER FATIGUE & ADAS

State of the art Driver Fatigue & ADAS cameras forms part of iCAM's solutions. Integrated with our Video Telematics Products reporting to a Single Platform for simple operation ensuring Driver Safety and Fleet Safety. Warning for Fatigue, Distractions, Mobile Phone Use as well as Headway, Collision and Pedestrian warnings make up some of the features offered by our on-board Fatigue & ADAS Cameras.

Our latest addition includes Facial Recognition available on our Fatigue Camera.

[www.icamvideo.co.za](http://www.icamvideo.co.za)  
call : 086 115 8527

iCAM Video Telematics services consist of a broad and all-encompassing range which cater to our customer requirements.

#### Services include:

- Web, Desktop, IOS & Android platform/s
- Recovery & Monitoring options (including video monitoring)
- Reports & Business Intelligence
- Technical and Support services

24 hrs. Medical Evacuation	Arranged through VAPS Call Centre	N/A
<b>Premium (incl VAT)</b>	<b>R 45 per vehicle per month</b>	

## 10 VAPS HCV DRIVER TRAINING

ARRIVE ALIVE WITH  
**MASTERDRIVE**  
Specialised Corporate Advanced Driver Training

VAPS HCV in association with Masterdrive offers our clients industry accredited driver training through their Mastertrucker program.

#### The training can include the following courses:

- Defensive driving – HGV and commercial
- HCV Rollover Prevention
- Medium commercial vehicle (MCV) driver training
- Driver Assessments

MasterDrive is a result-driven, driver training organisation that engages with and assists companies in managing driver risk interventions. The company was established in 1999 and became part of the RAC Group (established in 1997). The company has a dedicated team of professional, internationally accredited instructors delivering training on a range of programs. These encompass the full spectrum of vehicles – from motorbikes to cars to buses and trucks.

#### Areas of training:

Liquid and dry bulk	Solid loads	The MasterTrucker
Heavy-duty vehicle rollovers and the consequential damages, particularly when fuel and other dangerous goods are involved, can be massive. This dictates that practical training, for drivers to better understand critical factors, is essential.	Solid loads require a specific skill set to prevent costly rollovers. Drivers need to adapt to changing loads and adjust driver behaviour to avoid rollovers.	This rollover truck is a fully equipped tanker with outriggers. This allows drivers to feel at what point a rollover can occur without going over. Drivers also learn about factors such as the Centre of Gravity (COG) and centrifugal forces and how they can significantly impact the driver's risk of rollover.

MasterDrive's, one-of-a-kind training in Africa, has been proven to save up to R80 million in one fleet. This alone motivates corporations to embrace the training techniques. Please contact Abrie Olivier for more information regarding the Driver Training program on [info@vapsinsurance.co.za](mailto:info@vapsinsurance.co.za)

A person in a blue uniform is seen from behind, working in a server room. The room is filled with rows of server racks, and the lighting is dim with some blue and red highlights. The person is sitting at a desk, looking at a monitor. The background shows more server racks and some ceiling lights.

# VAPS HCV RISK & BUREAU SERVICES

# 11 VAPS HCV RISK & BUREAU SERVICES

## When they're driving – We're monitoring.

VAPS HCV Risk & Bureau Service is a policy add-on that assists our clients with fleet control room activities backed by highly proficient hindsight, insight and foresight data analytics and reporting for the streamlining of a fleet operation. Dedicated fleet controllers assist with monitoring of vehicle movements, incidents, alerts and alarms and shares this real-time information with the VAPS Assist 24/7 Accident Centre. Our highly experienced fleet consultants interrogate and interpret vehicle data to provide the insights and actions needed for future cost reduction and operation improvement.

### Features:

#### Driver Monitoring

- 24/7 Driver monitoring: speed, harsh braking and acceleration, unscheduled stops, vehicle abuse
- Optimising driver safety and productivity

#### Real-time Route Monitoring

- Fleet management software analysis
- Eyes-on-screen route monitoring assistance
- Dedicated fleet controllers assigned to clients
- Direct communication with the brokers and clients
- Geo zone mapping and adherence
- Fuel consumption monitoring
- Daily health checks

#### Data Analytics

- Comprehensive data analysed and simplified for your convenience
- Individual driver scorecards and risk profiling.
- Rich fleet analytics data: On-site visits and duration count, driver behaviour, etc.

#### Consultancy Services

- Highly trained fleet consultants visit clients on-site to customise the reporting around their unique operation.

#### 24/7 Emergency Response Centre

- 24/7 Fleet monitoring
- Emergency response linked to the VAPS HCV 24/7 Call Centre
- Panic alarms
- Tamper alarms
- Stolen vehicle recovery support
- Vehicle immobilisation (Illegal movement prevention)
- Helicopter/Air response (Available to Autotrak clients at an additional cost)

#### Reporting

- Detailed weekly and monthly reports tailored to your needs sent to brokers and clients.
- Variety of powerful reports available at your disposal: productivity, safety, travelling time, KM usage, after hours, driver behaviour, POI visits, EXCO monthly summary, and many more.

All this translates to financial savings and greater efficiencies in managing, operating and maintaining your vehicle fleet.

# 12 POLLUTION/SPILLAGE COVER

by EnviroSure

EnviroSure offers a comprehensive environmental policy for customers transporting hazardous goods and potential pollutants. Over the years this cover has been perfected to offer the most value to the Insured. This cover is designed to protect transporters of dangerous goods and potential pollutants from the extensive costs of pollution and rehabilitation following an environmental incident. Potential pollutants can include items as diverse as food products, paint and detergents. Policyholders automatically qualify for a Service Level Agreement with Spill Tech. This ensures that any clean-up will be handled by a leading South African spill-response company.

## VAPS HCV in partnership with EnviroSure can offer clients the following EnviroSure products added to our policy schedules

- EnviroSure Spill Protect Plan
- Transport Cleanup Policy
- Value Added solutions like Side Tank spillage and Excess Solutions

### The Spill Protect Plan by EnviroSure

EnviroSure is proud to offer its customers a revolutionary product designed to simplify and expedite all clean-up and insurance aspects related to an environmental spill. Thanks to our recent merger with Spill Tech, we can now offer an industry first: the Spill Protect Plan™ which provides comprehensive cover incorporating risk management, insurance and claims management.

## The Spill Protect Plan™ is designed as a complete environmental impairment management solution to provide:

- Expert advice on risk assessment and incident prevention in your business process
- Immediate response to any environmental incidents
- Access to insurance specialists who will handle all the legalities and oftentimes complex paperwork related to your claims

## Benefits of the Spill Protect Plan:

- Hazcall24: 24-hour Call Centre and Incident Management Control Room
- Guaranteed immediate response
- National response footprint by ISO certified skilled responders
- Live updates – accurate incident record keeping
- Spill Tech discounts offered on related services
- Compliance reporting support
- Risk management – training, emergency exercises, spill kits
- Responders have a vested interest in the clean-up
- Wide range of cover with VAPs
