

# VAPS HCV Risk & Bureau Services

WHEN THEY'RE DRIVING - WE'RE MONITORING

## What is covered?

VAPS HCV Risk & Bureau Service is a policy add-on that assists our clients with fleet control room activities backed by highly proficient hindsight, insight and foresight data analytics and reporting for the streamlining of a fleet operation. Dedicated fleet controllers assist with monitoring of vehicle movements,

incidents, alerts and alarms and shares this real-time information with the VAPS Assist 24/7 Accident Centre. Our highly experienced fleet consultants interrogate and interpret vehicle data to provide the insights and actions needed for future cost reduction and operation improvement.

All this translates to financial savings and greater efficiencies in managing, operating and maintaining your vehicle fleet.

### Driver Monitoring

- 24/7 Driver monitoring: speed, harsh events, unscheduled stops, vehicle abuse
- Optimised driver safety and productivity

### Real-time Route Monitoring

- Fleet management software analysis
- Eyes-on-screen route monitoring assistance
- Dedicated fleet controllers assigned to clients
- Direct communication with the brokers and clients
- Geo-zone mapping and adherence
- Fuel consumption monitoring
- Daily health checks

### Data Analytics

- Comprehensive data analysed and simplified for your convenience
- Individual driver scorecards and risk profiling.
- Rich fleet analytics data: On-site visits and duration count, driver behaviour, etc.

### Consultancy Services

- Highly trained fleet consultants visit clients on-site to customise the reporting around their unique operation.

### 24/7 Emergency Response Centre

- 24/7 Fleet monitoring
- Emergency response linked to the VAPS HCV 24/7 Call Centre
